

## Preface

2015 2<sup>nd</sup> International Conference on Mechatronics and Mechanical Engineering (ICMME 2015) was held in Singapore during September 15-16, 2015.

The conference provides a platform to discuss Mechatronics and Mechanical Engineering etc. with participants from all over the world, both from academia and from industry. Its success is reflected in the papers received, with participants coming from several countries, allowing a real multinational multicultural exchange of experiences and ideas.

Every submission has been peer reviewed by 2-3 reviewers in the right area, and more than 90 submissions have been received with only 50 of them were accepted finally. And then they have been grouped into Six sessions and chapters in the oral presentation and final publication in the proceedings, namely, Materials science and Engineering, Mechanical design and manufacturing, Thermal engineering theory and application, Control theory and technology, Vehicle engineering, and Power electronics and electrical engineering.

This conference can only succeed as a team effort, so the editors want to thank the international scientific committees and the reviewers for their excellent work in reviewing the papers as well as their invaluable input and advice. Thanks also goes to the Optics and Photonics Society of Singapore, Singapore, International Association of Computer Science & Information Technology, Singapore, PDPM Indian Institute of Information Technology, India and EDP Sciences for their various support to ICMME 2015.

Prof. Puneet Tandon, PDPM Indian Institute of Information Technology, India  
Prof. Meixing Guo, Guizhou University, China
