

Message from the General Chair

Dear Delegates,

Welcome to the ICCCP 2016, the event of Sponsored by China and Asia-Pacific Chemical, Biological & Environmental Engineering Society.

The year 2016, being the 7th anniversary of the formation of APCBEES, bears a special significance for us. The society which took off during Feb 2009, has remained airborne & completed 7 years of its journey, vide the support of all of its stakeholders. The journey was indeed, challenging but extremely educative and satisfying too. Challenging because the task of establishing a completely new society & using it as an umbrella for bringing very focused personnel under it, was certainly not an easy one. And to be frank, the journey was not entirely free of turbulence either. At the same time, the responsibility has taught us, among others, to cultivate patience and not to expect any radical solution of any problem overnight. Ultimately the feedback, informing us about our being able to meet the expectations of the stakeholders, is most satisfying and motivating. I solicit your continued patronage in the coming days & your views, stating both the merits & demerits of our style of working, will keep us navigating in the right direction.

Coming to ICCCP 2016, after carrying out an array of activities in Asia over the last 7 years, we decided to make the presence of APCBEES felt in other corners of the world too. The aim was to make the society a national outfit with global outlook. Accordingly, after celebrating the 7th anniversary in Hong Kong, we selected the picturesque Roma as the place for organizing our ICCCP this year.

The entire team of ICCCP as well as the Members of the ExeCom of APCBEES had promoted the event vigorously. I wish to express my sincere gratitude to all of them. The Program Chairs & the IPC members

demonstrated their extreme professionalism by completing the process of reviewing and short listing of papers within the stipulated time.

We would like to thank our outstanding keynote speakers Prof. Jacek Namieśnik, Prof. Hartmut Hinz, Prof. Marco Casini, Prof. Michael Schmidt, for sharing their deep insights on future challenges and trends in Chemistry and Chemical Process. Also with our special thanks to Associate Prof. Chi-wai KAN and Prof. Tuomas Koironen who are unable to attend the conference, but give us great support. Thanks for Technical Committee member Assoc. Prof. Ozgur Ceylan and Dr. Mohamed Elhefnawy, who coming to our conference and will share their research topics in our conference.

I wish to express my heartfelt thanks to all the authors who submitted their research findings for presentation at ICCCP 2016. Various constraints, including putting more emphasis on quality, compelled us to accept only a subset of the total no. of submitted manuscripts. My hearty congratulations go to all the authors of the accepted papers. I am sure this acceptance will make them pursue their research with more vigor.

Apart from usual participation which involves renewing old friendships & building new bridges, I believe that all of you will find your sojourn in Bali comfortable and the its scenic beauty enjoyable. I also hope that we will continue to be in touch in the coming days. Your feedback – good or bad – will be one of the essential ingredients for our future success & I urge you once more to assist us towards that. Before ending, let me wish all of you a very happy & prosperous 2016.

General Chair, ICCCP 2016

Committee Members

Conference General Co-Chairs

Prof. Jacek Namieśnik
Faculty of Chemistry, Gdansk University of Technology, Poland

Program Co-Chairs

Associate Prof. Chi-wai KAN
The Hong Kong Polytechnic University, Hong Kong

Contact Chair

Ms Flora Feng
Asia-Pacific Chemical, Biological & Environmental Engineering Society

Technical Committee

Prof. Tuomas Koiranen
Lappeenvanta University of Technology, Finland

Prof. JERZY SEK
Lodz University of Technology, Poland

Prof. Junkuo Gao
Zhejiang Sci_Tech University, China

Prof. Changjun Hou
Sichuan University of Science & Engineering, Zigong, China

Prof. Elena Ivashkina
Tomsk Polytechnic University, Tomsk, Russia

Assoc. Prof. Javeed A. Awan
Technical University of Denmark, Denmark

Assoc. Prof. Ozgur Ceylan
Muğla Sıtkı Koçman University, Turkey

Assoc. Prof. Khairul Sozana Nor Kamarudin
Universiti Teknologi Malaysia, Malaysia

Dr. Rodrigo J. Alvarez-Mendez
Universidad de Xalapa, Mexico

Dr. Mohamed Elsayed Elhefnawy
King Abdulaziz University, Saudi Arabia

Dr. Manel Wakkal
Institut National des Sciences Appliquées, Toulouse, France
