PRESENTATION OF CONFERENCE:

The conference is held annually since 2010. Conference participants are engineers, professors, students and young scientists.
The conference is devoted to topical issues in the field of development and application of modern information technologies in science and industry. **Topics within the scope of the conference include:**

- Problems of development and application of modern sensors for obtaining reliable data about the object of measurement;
- Construction of measuring instruments and systems based on smart sensors;
- The use of modern measuring systems and information technologies in the production and research activities;
- Experience in application and prospects of development of modern measuring systems;
- Development and application of smart information systems in medicine;
- Smart reconfigurable systems of control, navigation and image processing for autonomous mobile robots;
- Algorithms and mathematical models of high-speed processing and image analysis systems;
- Development and application of radio-wave imaging systems;
- Problems of staff training for modern enterprises which use high-tech systems for data collecting and processing.

The conference was carried out on sections:
1. The use of modern measuring and information devices and technologies.
2. Innovative technologies in radio physics, microwave and semiconductor electronics.
3. Information technologies in medicine.
4. Information and Intelligent systems of mechatronics and robotics.
5. Organizational and methodological issues of staff training in the field of information-measuring devices and technologies. (Use of information technologies in the educational process).

ORGANIZING COMMITTEE

Conference chairman Alexey V. Yurchenko – D.Eng.Sc., professor, Senior Researcher of the international laboratory Vision Systems;
Conference co-chairman Vladimir I. Syryamkin – D.Eng.Sc., professor, Head of the Department of Quality Control of the Faculty of Innovative Technologies, National Research Tomsk State University; President of the Association of Innovative Enterprises and Organizations of Tomsk and Tomsk region; academician of International Academy of Sciences of Higher Education and Russian Academy of Natural Sciences; Eduard Siemens- professor, Anhalt University of Applied Sciences (Germany);
Anatoliy N. Soldatov – Dr. Sci. in Physics and Mathematics, professor, Head of the Regional Center of the Russian Association of Laser, Honored Inventor of the Russian Federation, dean of the FIT TSU;
Vladimir P. Yakubov – Dr. Sci. in Physics and Mathematics, professor, Head of the Department of Radiophysics, National Research Tomsk State University;
Stanislav V. Shidlovsky – D.Eng.Sc., professor of the Department of Quality Control of the Faculty of Innovative Technologies, National Research Tomsk State University; Head of the Laboratory of high-performance reconfigurable systems;
Ali D. Mehtiyev – Ph.D. in Eng.Sc., Head of the Department of Technologies and Communication Systems of Karaganda State Technical University;
Artem V. Kozlov – academic secretary: Ph.D. in Eng.Sc., research associate of Institute of Atmospheric Optics of Siberian Branch of the Russian Academy of Science (IAO SB RAS);
Sergey E. Shipilov – Ph.D. in Physico-mathematical Sciences, associate professor of the Department of Radiophysics National Research Tomsk State University;
Alexander Yu. Verkhovskiy – Head of the Laboratory of Biochemistry of Transport Systems, Faculty of Innovative Technologies, National Research Tomsk State University;
Maxim V. Syryamkin – director of the interacademic educational and scientific production center Technology Management, National Research Tomsk State University;
Alexander E. Goldstein – D.Eng.Sc., professor of the Department of Physical Methods of Non-Destructive Testing, National Research Tomsk Polytechnic University;
Olga V. Galtseva – Ph.D. in Eng.Sc., associate professor of the Department of Non-Destructive Testing, Science Office the Institute of Non-Destructive Testing, National Research Tomsk Polytechnic University;
Irina A. Larioshina – Ph.D. in Eng.Sc., Science Office the Institute of Non-Destructive Testing, National Research Tomsk Polytechnic University;
Artem A. Ananin – Head of the scientific and educational projects of National instruments;
Denis N. Kuznetsov – FIT TSU, Conference Secretary;
Alexey A. Poguda – deputy Dean of the FIT TSU, coordinator of the conference site.

PROGRAM COMMITTEE

Chairman Vladimir I. Syryamkin – D.Eng.Sc., Professor, Head of the Department of Quality Control of the Faculty of Innovative Technologies, National Research Tomsk State University; President of the Association of Innovative Enterprises and Organizations of Tomsk and Tomsk region; academician of International Academy of Sciences of Higher Education and Russian Academy of Natural Sciences;
Nikola Sobutonov – Professor, Academician of the Bulgarian Academy of Sciences;
Anatoliy N. Soldatov – Dr. Sci. in Physics and Mathematics, professor, Head of the Regional Center of the Russian Association of Laser, Honored Inventor of the Russian Federation, dean of the FIT TSU;
Stanislav V. Shidlovsky – D.Eng.Sc., professor of the Department of Quality Control of the Faculty of Innovative Technologies, National Research Tomsk State University; Head of the Laboratory of high-performance reconfigurable systems;
Valery L. Vengrinovich – D.Eng.Sc., professor, Minsk, Belarus;
Sergey B. Suntsov – JSC Information Satellite Systems named after Academician MF Reshetnev. (Krasnoyarsk);
Vladimir P. Yakubov – Dr. Sci. in Physics and Mathematics, professor, Head of the Department of Radiophysics, National Research Tomsk State University;
Ali D. Mehtiyev – Ph.D. in Eng.Sc., Head of the Department of Technologies and Communication Systems of Karaganda State Technical University;
Alexey G. Yakunin – Professor, Head of the Department of Computer Science, Computer Engineering and Information Security, Polzunov Altai State Technical University;
Boris V. Poller – D.Eng.Sc., professor, Head of the Laboratory of Laser Information Systems, Institute of Laser Physics, Siberian Branch of the Russian Academy of Science;
Eduard Siemens – Professor, Dr, Anhalt University of Applied Sciences;
Jörg Bagdahn – Professor, Dr, Anhalt University of Applied Sciences.

SPONSORS:

- National Instruments Corporation
- The Russian Foundation for Fundamental Research

Organizers of the conference:

- National Research Tomsk State University, Tomsk, Russia;
- National Research Tomsk Polytechnic University, Tomsk, Russia;
- JSC "Scientific-Research Institute of Semiconductor Devices", Tomsk, Russia;
- Polzunov Altai State Technical University, Barnaul, Russia;
- JSC "Information Satellite Systems to them. Reshetnev ", Krasnoyarsk, Russia;
- Karaganda State Technical University, Karaganda, Kazakhstan;
- Anhalt University of Applied Sciences (Germany);
• National Instruments Corporation (USA).
