

About ISCEE 2016

The Faculty of Civil and Environmental Engineering, Universiti Tun Hussein Onn Malaysia (UTHM) is proud in organizing the International Symposium on Civil and Environmental Engineering 2016 (ISCEE 2016). Jointly organised by the Centers of Research in the Faculty, i.e. Jamilus Research Center for Sustainable Construction (JRC), Micropollutant Research Center (MPRC) and Smart Driving Research Center (SDRC), ISCEE 2016 aims to bring together experts from the academia and industry to share their research and discuss about current trends, new innovations, challenges and solutions in the field of Civil and Environmental Engineering. ISCEE 2016 is co-organised by Universitas Gadjah Mada, Universitas Muhammadiyah Surakarta, Universitas Brawijaya, the Institute for Infrastructure Engineering and Sustainable Management and Jabatan Kerja Raya.

- Theme -

Sustainable Infrastructure for Global Awareness and a Better Future

- Main Organizer -

- Co-Organizers -

- Parallel Conference -

International Conference on Sustainable Construction and Structures
(ISuCOS 2016)

International Conference on Sustainable Environment and Water Research
(ICSEWR 2016)

International Conference on Sustainable Infrastructure Engineering
(ICSIE 2016)
