Preface:

International Workshop on Transportation and Supply Chain Engineering (IWTSCE’16) is organized by Hassan II University of Casablanca and International University of Rabat. The purpose of this meeting is to provide an international forum for recent developments in selected fields of research in transportation systems and supply chain engineering by bringing together researchers, practitioners and research scholars from all over the world to exchange and share their experiences and research results. The workshop is intended to provide chances for intensive discussions about their own selected topics, practical challenges encountered and identify future directions for the development of related modeling strategies and computational techniques. Innovative presentations are all invited, and participants for auditing only are also welcomed.

In order to make IWTSCE conference proceedings widely usable by the scientific community, we are proud having a partnership with MATEC as one of reputable partner with highly flexible publishing solutions. All accepted paper will be published by EDP Sciences on El Serial Journal of MATEC web of Conferences {ISSN (Electronic Edition):2261-236X} as a proceeding. MATEC Web of Conferences is indexed in SCOPUS, Thomson Reuters (web of science), Chemical Abstracts Service (CAS), DOAJ, Engineering Village, Google Scholar, and Inspec. For further information about IWTSCE, please visit the web site at: www.iwtsce16.eb2a.com.

We express our deepest gratitude to all members of the scientific committee, invited speakers, reviewers, sponsors, participants in the conference and members of the IWTSCE organizing committee for their valuable contribution to the successful organization of IWTSCE’16.

Dr. Badr Abou El Majd

General Chair
International Workshop on Transportation and Supply Chain Engineering
