

PREFACE

Welcome to 2018 Asia Conference on Mechanical Engineering and Aerospace Engineering (MEAE2018), which is held during June 23-25, 2018 at China University of Geosciences (Wuhan) in Wuhan, China.

The aim objective of MEAE 2018 is to provide a platform for researchers, engineers, academicians as well as industrial professionals from all over the world to present their research results and development activities on Mechanical Engineering and Aerospace Engineering. This conference provides opportunities for the delegates to exchange new ideas and application experiences face to face, to establish business or research relations and to find global partners for future collaboration.

The present volume contains the selected papers submitted to this conference and provides up-to-date, comprehensive and worldwide state-of-the art knowledge in the field of Mechanical Engineering and Aerospace Engineering. All papers included in this collection had undergone the careful peer-review by the conference technical committee members and international reviewers before they're selected for publication. Studies presented in this volume cover the following topics: Aerospace Mechatronics and Avionics Systems, Aerospace Communications, Mechanical Engineering in Aerospace, Aerospace Engineering and Management, Electronic Systems,

We'd like to express our gratitude to all the committee members for their great professionalism and efforts. And thank all the sponsors and participants for their valuable contributions and support to MEAE 2018.

MEAE2018

Conference Committee
