

# Preface

This volume contains papers presented at the 2<sup>nd</sup> International Conference on Information Processing and Control Engineering, which was held during July 27-29, 2018 in Shanghai, China.

ICIPCE provides a scientific platform for both local and international scientists, engineers and technologists who work in all aspects of Information Processing and Control Engineering. In addition to the contributed papers, internationally known experts from several countries are also invited to deliver keynote and plenary speeches at ICIPCE 2018.

The volume includes 23 selected papers which were submitted to the conference from universities, research institutes and industries. Each contributed paper has been peer-reviewed by reviewers who were collected organizing and technical committee members as well as other experts in the field from different countries. The proceedings tend to present to the readers the newest researches results and findings in the field of Information Processing and Control Engineering.

Much of the credit of the success of the conference is due to topic coordinators who have devoted their expertise and experience in promoting and in general co-ordination of the activities for the organization and operation of the conference. The coordinators of various session topics have devoted a considerable time and energy in soliciting papers from relevant researchers for presentation at the conference.

The chairpersons of the different sessions played important role in conducting the proceedings of the session in a timely and efficient manner and the on behalf of the conference committee, we express sincere appreciation for their involvement. The reviewers of the manuscripts, those by tradition would remain anonymous, have also been very helpful in efficiently reviewing the manuscripts, providing valuable comments well within the time allotted to them. We express our sincere and grateful thanks to all reviewers.
