Preface

2018 4th International Conference on Communication Technology (ICCT 2018) will be held on September 27-29, 2018, Aachen, Germany. Aachen is a city in North Rhine-Westphalia, Germany, at the point where Germany borders on Belgium and the Netherlands. Historically this spa-town was a prominent city, the place where the German Kings were crowned, and a famously favored residence of Charlemagne who still lies buried in the impressive cathedral he himself had built. The city is packed with historic sites that remind of those days, including medieval buildings, city gates and beautiful fountains.

The aim of ICCT 2018 is to provide a common platform for educators, artists, scholars, and students from different cultural backgrounds to present and discuss research, developments and innovations in the fields of Communication Technology.

ICCT 2018 is co-sponsored by Information Engineering Research Institute, USA and Singapore Management and Sports Science Institute, Singapore. ICCT 2018 is also technically co-sponsored by Hannam University, South Korea, Universidad Autonoma de Bucaramana, Colombia, and Universiti Teknologi MARA, Malaysia.

The conference received 112 manuscripts. All submitted papers must be pre-screened for conformity with manuscripts guidelines and for overall appropriateness and then double-blind peer reviewed by three international technical committees. The quality of the abstract, relevance to the conference, introduction and motivation, presentation of the state of the art, originality of the own contribution, presentation of the results, conclusions and future work, quality of the English, quality of the figures, quality of formats were the reviewing contents. Finally, only 38 best papers were accepted with the acceptance rate 33.9%. iThenticate Software was also used for plagiarism detection to ensure the originality of ICCT 2018 proceedings.

All accepted papers of ICCT 2018 will be published in MATEC Web of Conferences Proceedings (ISSN: 2261-236X) by EDP Sciences. The ICCT 2018 topics include but are not confined to the following topics:

- 1) Mechatronic Systems and Materials Science;
- 2) Communication Technology and Information Engineering;
- 3) Management Science and Engineering.

We express our special gratitude to all the members of Organizing Committee, who worked so hard to prepare the conference and who supported the conference so professionally.

Finally, we would like to thank all the authors, speakers and participants of this conference for taking part in and contributing to the ICCT 2018.

ICCT 2018 International Organizing Committee
