

EITCE 2018 Preface

The previous First International Conference on Electronic Information Technology and Computer Engineering (EITCE 2017) was successfully taken place on September 22-24, 2017 in Zhuhai, China. All accepted papers of EITCE 2017 has been published by MATEC Web of Conferences (ISSN(Electronic Edition): 2261-236X) and has been indexed by EI Compendex.

The 2018 2nd International Conference on Electronic Information Technology and Computer Engineering (EITCE 2018) has been held on October 12-14, 2018 in Shanghai University of Engineering Science, China. The conference was organized by Shanghai University of Engineering Science, China and Guangdong Academy of International Academic Exchange. This volume contains selected papers contributed by the participants. The conference addressed recent development in the following,

- (1) Network Security System, Neural Network and Data Information
- (2) 3D Images Reconstruction and Virtual System
- (3) Algorithm Study and Mathematical Application
- (4) Circuit Simulation, Electric Modules and Displacement Sensor

This conference provides opportunities from different areas delegates to exchange new ideas and application experiences face to face, to establish business or research relations and to find global partners for future collaboration. The major goal and feature of the conference is to bring academic scientists, engineers, industry researchers together to exchange and share their experiences and research results, and discuss the practical challenges encountered and the solutions adopted. Professors from different areas are invited to deliver keynote speeches regarding latest information in their respective expertise areas.

The organization of this conference and the preparation of proceedings volume would have been impossible without the tremendous efforts and dedication of many individuals. All conference organizing committee oversaw the organization of the Conference. We would like to acknowledge a large team of reviewers for their timely submission of quality reports. Without this support, the conference could not have been successful. We sincerely hope that EITCE conference will serve as an ideal forum for academia, industrial practitioners and government agents.
