

# TransSiberia 2018

## Translogistica

### PREFACE

The Siberian Transport Forum - TransSiberia–2018 is the largest annual scientific and practical event for the Russian transport industry. This year, the Forum was held on May 16-19 in the building of the Novosibirsk ExpoCentre in Novosibirsk.

The Siberian Transport Forum is traditionally held with the support of the Ministry of Transport of the Russian Federation and the State Duma of the Russian Federation. Every year, it gathers at least 7,000 people - participants from all constituent entities of the Russian Federation, as well as from near and far abroad countries. This year, during three days, 7420 people visited the exhibitions and events of the business and scientific program of the forum. Delegations from 24 Russian regions and nine foreign countries took part in the work of the sections.

Within the forum, numerous plenary sessions, sessions of a scientific conference, round tables devoted to the functioning and development of all types of transport, road construction, transport and logistics complexes were held.

Traditionally, the emphasis was on strategic planning for the development of the transport complex in Russia and increasing the economic feasibility of large infrastructure projects in the Siberian Federal District. During the discussion of the state of the transport industry in Russia, strategic decisions on its development were made. Due to the participation of prominent foreign scientists, there has been an exchange of international experience on these and many other issues.

The event was attended by Presidential Envoy of the Siberian Federal District Sergey Menyaylo, Deputy Head of the Ministry of Transport of the Russian Federation Alexander Yurchik, Head of the Novosibirsk Region Andrey Travnikov, and Head of the Russian Corporation of Nanotechnologies Anatoly Chubais.

*On behalf of all participants of the Siberian Transport Forum, we express our deep gratitude to the editorial board of MATEC Web of Conferences journal for the opportunity to publish the proceedings of the TransSiberia-2018 scientific conference.*

*Andrey Dmitrievich Abramov  
Dr.Sc., prof., Vice-Rector for Research, Siberian Transport University  
and Vera Murgul
