

Preface

With purpose to foster communication among worldwide scholars and scientists, and to provide a professional platform for the presentation of the latest and most inspiring research achievements, the **2019 International Conference on Computer Science Communication and Network Security (CSCNS2019)** is organized and held in **Sanya of China** on **December 22-23, 2019**.

During the convention, invited speakers have shared with participants their work of research for discussing, and participants from around the world have contributed and expressed their ideas as support.

CSCNS2019 has received support and submission from authors and scholars in many countries. The papers focus mainly on system design and optimization, software and algorithms, computer simulation etc. These researches, we believe, will be of great value to the advance of related subject after publication.

CSCNS2019, by support of many people and institutes, was a great success and we expect your support to the next forum coming soon.

**2019 International Conference on Computer Science
Communication and Network Security**

December 22-23, 2019 in Sanya, China

Committee

General Chairs

Jaehun Joo, Dongguk University in South Korea, South Korea

Gabriela Mogos, Xi'an Jiaotong-Liverpool University, China

Program Chair

Valentin Mateev, Technical University of Sofia, Bulgaria

Technical Program Committee

Grigoras Gheorghe, Technical University of Iasi, Romania

Henri Basson, University of Littoral Opal Coast, Calais France

Tomasz Rak, Rzeszow University of Technology, Poland

Imran Memon, Zhejiang University, China

Manish Bhardwaj, Krishna Institute of Engineering and Technology
(KIET), India

Loc Nguyen, Ho Chi Minh University of Science, Vietnam

Sumit Kushwaha, Indian Institute of Technology, Kanpur, India
