

PREFACE

This volume contains papers presented at 2020 6th Asia Conference on Mechanical Engineering and Aerospace Engineering (MEAE 2020), which was held during June 14-16, 2020 in Chengdu, China.

MEAE 2020 provides a scientific platform for both local and international scientists, engineers and technologists who work in all aspects of Mechanical Engineering and Aerospace Engineering. The goal of MEAE is to establish an international forum for engineers and scientists to present their ideas and experiences in the fields of Mechanical Engineering and Aerospace Engineering like we always do.

The volume includes 18 selected papers which were submitted to the conference from universities, research institutes and industries. Each contributed paper has been peer-reviewed by reviewers who were collected organizing and technical committee members as well as other experts in the field from different countries. The proceedings tend to present to the readers the newest researches results and findings in the field of Mechanical Engineering and Aerospace Engineering.

The chairpersons of different sessions played important role in conducting the proceedings of the session in a timely and efficient manner, and on behalf of the conference committee, we express sincere appreciation for their involvement. The reviewers of manuscripts have also been very helpful in efficiently reviewing the manuscripts, providing valuable comments well within the time allotted to them. We express our sincere and grateful thanks to all the sponsors and participants for their valuable contributions and support to MEAE 2020.

Finally, we wish you have a stimulating and fruitful time at the conference.

MEAE-2020 Conference Committee
