

PREFACE

This volume contains papers presented at 2020 4th International Conference on Measurement Instrumentation and Electronics (ICMIE 2020), which was held during September 18-20, 2020 in Chengdu, China.

ICMIE 2020 provides a scientific platform for both local and international scientists, engineers and technologists who work in all aspects of measurement instrumentation and electronics. The goal of ICMIE is to establish an international forum for engineers and scientists to present their ideas and experiences in the fields of measurement instrumentation and electronics like we always do.

The volume includes 18 selected papers which were submitted to the conference from universities, research institutes and industries. Each contributed paper has been peer-reviewed by reviewers who were collected organizing and technical committee members as well as other experts in the field from different countries. The proceedings tend to present to the readers the newest researches result and findings in the field of measurement instrumentation and electronics.

The chairpersons of different sessions played important role in conducting the proceedings of the session in a timely and efficient manner, and on behalf of the conference committee, we express sincere appreciation for their involvement. The reviewers of manuscripts have also been very helpful in efficiently reviewing the manuscripts, providing valuable comments well within the time allotted to them. We express our sincere and grateful thanks to all the sponsors and participants for their valuable contributions and support to ICMIE 2020.

The expectation is that this conference is a significant contribution to this area and that the organization deserves your admiration.

ICMIE 2020 Conference Committee
