

Preface

Following the experience of CSCNS2019, we have held **the 2020 2nd International Conference on Computer Science, Communication and Network Security (CSCNS2020)** in Sanya, China on December 22-23, 2020 and it was a great success both for the organizers and attendees.

The 2020 was a hard year for all people due to the outbreak and spread of COVID-19. However, scholars and researchers from around the world did not stop their work and pace for advance. During the meeting, we have had inspiring presentations and posters by passionate participants. It is for sure that CSCNS2020 will once again serve an inspiration to its participants and help them find impetus for success.

CSCNS2020 had welcomed contributors and speakers who were also participants of the CSCNS2019. It was a great honor to have their support and we look forward to the next meeting soon.
