

Opening address

Dear Participants,

We are delighted to welcome you to AEEGE 2024 conference. Due to the schedule of experts and participants on that day conflicts with our conference time, most of them cannot attend the conference offline. Thus, we have no choice but to change our 2024 3rd International Conference on Advanced Electronics, Electrical and Green Energy (AEEGE 2024) to be online on May. 24th, 2024.

Changing the format however shall not affect the desire of the conference. We wish to continue our communication to share our new research ideas, discuss challenges and form collaborations to solve various issues on 2024 International Conference on Advanced Electronics, Electrical and Green Energy. Also, the change of conference form will not influence the papers' publication and indexing. All the registered and presented papers will be included in the conference proceedings, which will be published by MATEC Web of Conferences (ISSN: 2261-236X).

After several rounds of review procedures, the program committee accepted those papers to be published in conference proceedings. We wish to express our sincere appreciation to all the individuals who have contributed to AEEGE 2024. Special thanks are extended to our colleagues in program committee for their review of all the submissions, which is vital to the success of the conferences, and to the members in the organizing committee who had dedicated their time and efforts in planning, promoting, organizing and helping the conferences. Last but not the least, our special thanks go to our speakers: Prof. Udaya K. Madawala, The University of Auckland, New Zealand; Prof. Fushuan Wen, Zhejiang University, China; Prof. Yiming Zhang, Fuzhou University, China; Assoc Prof. Md. Hasanuzzaman, University of Malaya, Malaysia for all the kind and patient support and assistance they offered to our whole conference procedures.

In all, I would like to express my deepest gratitude to all of you sitting here, to the whole organizing committee, to all the reviewers and those who are not able to show up today, for your great support for AEEGE 2024.

While we are not able to meet each other face to face, we hope the conference can still establish a solid linkage among all the participants as desired. We look forward to your contribution to making AEEGE 2024 a success.

AEEGE 2024
